MICRO GIFTING

A gift doesn't always have to be big or expensive. It's about the disarming effect of the gesture. The smile, the good feeling.

You can respond to this perfectly with micro gifting. A micro-gift is a small gift to stimulate, reward or involve customers, colleagues and business relations.

Jānis Nātra

Fleet Sales Manager at Moller Auto in Latvia

"Glad to work with Marc Wijnands and his team! 🤖 Marc always knows what exactly he wants. You could not ask for a better client. We made trade in for T-Cross, Tiguan Life and Tiguan R-Line. Now i-rewardshop.com is more sustainable with 2 new ID.4. Electrifying experience! "

Thijs Winters
